

ENERGY STAR® Application for Certification

ENERGY STAR ® Score¹

75-101 Federal Street

Registry Name: 75-101 Federal Street

Property Type: Office

Gross Floor Area (ft2): 888,478

Built: 1929

For Year Ending: 06/30/2016²

Date Application Becomes Ineligible: 10/28/2016

- 1. The ENERGY STAR Score is based on total source energy. A score of 75 is the minimum to be eligible for the ENERGY STAR.
- 2. Applications must be submitted to EPA within 120 days of the Year Ending Date. The award is not final until approval is received from EPA.

Please use the Licensed Professional's Guide to the ENERGY STAR ® for Commercial **Buildings** for reference in completing this checklist (http://www.energystar.gov/lpguide).

2. Review of Property Use Details

This Use Detail is used to calculate the 1-100 ENERGY STAR Score. ★ 1) Gross Floor Area: 141,616 Is this the total size, as measured between the principal exterior surfaces of the enclosing fixed walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an artirum, you should count the Gross Floor Area at the base level only, bo not increase the size to accommodate open artirum space at higher lovels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways. **NOTE: This use detail was changed during the year ending 06/30/2016. The value above represents a time-weighted average of the values over this timeframe. The following table outlines the history of the changes resulting in the value displayed above: **Timeframe** Value** 07/01/2015 - 08/31/2015					
★ 1) Gross Floor Area: 141,616 Is this the total size, as measured between the principal exterior surfaces of the enclosing fixed walls of the building(s)? Number of Workers should not include visitors to the buildings such as clients, customers, or patients.	∑ Yes	□No
☆ 4) Number of Computers:		
Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.	∑ Yes	□No
★ 5) Percent That Can Be Heated: [9](4)		
Is this the total percentage of the property that can be heated by mechanical equipment?	✓ Yes	□ No
★ 6) Percent That Can Be Cooled: [0][4]		
Is this the total percentage of the property that can be cooled by mechanical equipment? This includes all types of cooling from central air to individual window units.	✓ Yes	□No
Notes:		
Office: 24/7 Office		
This Use Detail is used to calculate the 1-100 ENERGY STAR Score.		
1) Gross Floor Area: 12,000		□ Na
Is this the total size, as measured between the principal exterior surfaces of the enclosing fixed walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher	∑ Yes	∐No

levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.		
★ 2) Weekly Operating Hours: [D](4)		
Is this the total number of hours per week that the property is occupied by the majority of the employees? It does not include hours when the HVAC system is starting up or shutting down, or when property is occupied only by maintenance, security, cleaning staff, or other support personnel. For properties with a schedule that varies during the year, use the schedule most often followed.	☑ Yes	□No
☆ 3) Number of Workers on Main Shift: ■		
Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.	☑ Yes	□No
☆ 4) Number of Computers:		
Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.	✓ Yes	□No
☆ 5) Percent That Can Be Heated: (b) (4)		
Is this the total percentage of the property that can be heated by mechanical equipment?	✓ Yes	□No
☎ 6) Percent That Can Be Cooled: 100		
Is this the total percentage of the property that can be cooled by mechanical equipment? This includes all types of cooling from central air to individual window units.	 Yes	□No
Notes:

Professional Engineer Stamp

NOTE: When applying for the ENERGY STAR, the signature of the Verifying Professional must match the stamp.

5. Signatory Agreement

I hereby nominate the above described property for award of the ENERGY STAR. I have provided a copy of the Licensed Professionals Guide to the ENERGY STAR for Commercial Buildings to our Licensed Professional (LP) for reference. As documented by the above checklist, this property meets the conditions necessary to qualify as ENERGY STAR. I am submitting this application within four months of the Year Ending Date (June 30, 2016) used to generate the application. I will assist EPA, if requested, in verifying any data included in this application. Furthermore, I agree to associate the ENERGY STAR logo only with this property and to adhere to the ENERGY STAR Identity Guidelines.

Signature (must be a direct employee of the building owner/manager):

Signatory Name: Ron Hoyl , Vice President

Property Owner: Rockpoint Group 75-101 Fed Owner, L. C.C.

The government estimates the average time needed to fill out this form is 6 hours (includes the time for entering energy data, Licensed Professional facility inspection, and notarizing the SEP) and welcomes suggestions for reducing this level of effort. Send comments (referencing OMB control number) to the Director, Collection Strategies Division, U.S., EPA (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460
